Job-related German courses

You want to improve your German language skills?

We offer job-related language courses ("DeuFöV" courses). The courses build up on the integration courses. You can improve your chances of getting a job or vocational training if you learn job-related German.

Offer

- courses with different target language levels (A2 to C1)
- full and part-time courses
- a full-time course takes approximately 4-5 months. It takes 400 to 500 schooling hours.
- some courses have child care
- you can find an overview at "KURSNET" at the public employment agency (Agentur für Arbeit)

You can attend a job-related language course if you

- are a foreigner
- are a citizen of the European Union
- are German with a migration background and want to improve your German language knowledge

Requirements

- you need an authorization certificate from the Jobcenter or from the public employment agency (Agentur für Arbeit)
- you can only attend an A2 or B1 course if you previously took part in an integration course
- you cannot participate if you are still at school and are a teenager or young adult

Registration

You can register four weeks before the course starts (see "KURSNET").

Registration for our courses take place at our cooperation partner:

Wirtschaftsschule Paykowski (WiPa)
Maxstraße 58-60
45127 Essen
0201 248535510
